An awesome first day of the Alliance Summer Program. A huge thank you to Sarah from Centennial Mental Health Center, Inc., Alexa and Linette from Advocates for Children CASA and Isaac Oltersdorf. You guys made this day ROCK!

IN CASE YOU MISSED IT

Clients seeking Meds Only must first be evaluated by a clinician to determine stability, etc. and to insure that they meet the criteria established for this level of care. Clients are told they need to attend a minimum of 2 or 3 clinical sessions before a referral will be made to the medical provider for a Medical Intake. At that point, if the individual meets the criteria and if therapy services do not seem warranted, the clinician completes a referral indicating that the client is interested in "Meds Only", and the medical provider is given opportunity to decide if they feel this is appropriate. The Treatment Plan is completed to include medication management services, a Meds Only Treatment Plan can be completed after the steps noted above are taken.
