NEWS FROM THE NORTHEAST

By the #'s for the Northeast: When fully staffed/how many staffed

Clinicians 15/8 | Mentors 2/1 | CM including MAT 4/4 | Peers 4/4

Despite experiencing turn over in our clinical positions the NE remains strong. We're working to increase our client access hours and have formulated instrumental practices between our clinicians, case managers and support team. This allows us to have a decreased rate of unproductive time. We also discuss and promote collaborative documentation between staff and clients. This approach can be difficult to grasp,

however, it lends itself to an increased participation with clients and allows clinicians time to finalize their note before their next appointment. This is great for self-care! For staff to know they don't have to stay late or come in on the weekends to finish their notes is definitely a benefit. We find that those who actively participate in this practice are more likely to reach above and beyond and have a healthy work/personal life balance. We're quite fortunate to have a great team who support each other and find value in the work they do. Keep up the good work Northeast!

Jami Brecht

Northeast Regional Operations Director
